

CUTOFF

↑ WEB DIRECTION

Center of Repeat (11.310 / 2 = 5.655)

3/8" x 1/2" Bag Machine Eye Mark, positioned 7/8" above the cutoff and 11/16" right of the web edge

CUTOFF

CAUTION: VERY HOT STEAM. OPEN BAG CAREFULLY, AWAY FROM FACE. THIS SIDE UP

INGREDIENTS: POPCORN, PARTIALLY HYDROGENATED SOYBEAN OIL, SALT, AND ARTIFICIAL BUTTER FLAVOR.

Top Print Area
W5 x H2.38
This print area is seen on back of folded bag

Fold

This is the suggested layout. You may use the area where the folds are. However if you choose to, the folds may cause a problem in your design.

Main Print Area
W5 X H3.678
This print area is seen on front of folded bag

NET WT 3.5 OZ (99g)

Fold

Bottom Print Area
W5 x H2.5
This print area will not be seen till bag is open

Microwave Popping Instructions

- Remove plastic overwrap and unfold bag. Place one bag INSTRUCTION SIDE UP in center of oven. Microwave on HIGH (full power) for 2 to 3 minutes.
- Listen carefully. Stop microwave when popping slows to 2 to 3 SECONDS BETWEEN POPS. Be careful not to overcook as popcorn will scorch.
- Handle hot bag carefully. For optimum flavor shake bag before opening. Open by tugging top diagonal corners. Avoid contact with escaping steam.

Helpful Hints

- For improved results, preheat a cup of water on high for one minute in microwave oven. Remove cup of water and proceed with popping instructions.
- After popping, shake bag before opening for even distribution of salt and flavoring.
- Stopping and starting microwave oven while popping can reduce number of popped kernels.
- If your microwave oven does not sufficiently pop popcorn, try raising bag off floor or oven using an inverted microwavable glass plate. Do not use plastic or paper; melting or scorching may occur.

NOTES: NEVER LEAVE MICROWAVE UNATTENDED. NEVER leave bag in microwave more than 5 minutes. DO NOT reuse unpopped kernels or reuse bag.
